Summary

I have a strong experience with creating web applications using Laravel and Vue.js that meet the needs of clients and users alike. My team on current job build international e-commerce platform with a lot of features. It serve few stores currently and growing up.

My current stack is: PHP (Laravel), JavaScript (Vue.js), PostgreSQL, MongoDB, Redis, Docker and Git.

In addition to my technical skills, I am committed to staying up-to-date with the latest developments in the field of web development. I enjoy taking on new challenges, whether it's working with new technologies or tackling complex coding problems.

Experience

Full Stack Developer

Mateline • Moscow, Moscow

09/2021 - Present

International e-commerce platform.

Technology stack:

- PHP (8.0-8.2)
